Course Description

This course provides an introduction to integrative therapeutic modalities which are used in health care. It focuses on various aspects of clinical therapeutics, where students receive information about important areas in therapeutics including the gastrointestinal, cardiovascular and endocrine. Various clinical cases of different diseases will be discussed to assess the patient's condition, determine reasonable treatment alternatives as well as to select appropriate therapy (pharmacological and non-pharmacological therapy), including monitoring parameters to justify those choices. In this course, students will study different conditions such as: peptic ulcer disease (PUD) and gastroesophageal reflux (GERD), inflammatory bowel disease (IBD). In addition, students will comprehend the management of hypertension, heart failure, myocardial infarction, and coagulopathy, as well as studying the treatment of diabetes mellitus and the various thyroid disorders.

Course Learning Outcomes

Number	Outcome	Corresponding Program Outcomes	Corresponding Competencies
Knowledge			
K1	Apply the knowledge obtained from this course to solve treatment problems associated with different diseases.	Kp3	C3
K2	*To integrate and apply pathophysiologic and pharmacotherapeutic knowledge to develop a drug therapy plan specific for each patient condition taking into account population differences and social determinants and their effect on medical care. *Being the medication expert and properly provide a patient centered care (collect and interpret evidence, prioritize, formulate assessments and recommendations, implement, monitor and adjust plans and document activities).	Kp1, Kp2, Kp4, Kp5	
K3	Be familiar with clinical presentations and the differential lab and physical examinations of different diseases.	Kp1, Kp2	C1, C2
Skills			
S1	Use evidence-based medicine to think critically of different medical cases.	Sp2	C8
S2	To provide the patient with a comprehensive treatment plan for his condition.	Sp1, Sp4	C7, C10
S3	Give patients' appropriate counseling about their non pharmacological and pharmacological therapy.	Sp3	C9
S4	Communicate appropriately with patient and medical staff.	Sp3, Sp5, Sp6, Sp8	C9, C11, C12, C14

Meetings and Subjects Time Table

Week	Topic	Learning Method*	Task	Learning Material
1	<ul style="list-style-type: none"> • Course Syllabus • General Principles (Pharmacy Care and Medication Therapy Management) 	Lecture		•Course Syllabus
1-4	Hypertension	Lecture		**
4-5	Heart Failure	Lecture		
6-7	Acute Coronary syndrome	Lecture		
7	Midterm Exam			
7-8	Venous Thromboembolism	Lecture		
9	GERD, Peptic ulcer	Lecture		
10-11	Inflammatory Bowel Disease	Lecture		
12-14	Diabetes Mellitus	Lecture		**
14-15	Thyroid	Lecture		
15	Constipation and Diarrhea	Flipped class		
16	Final Exam			

*Includes: lecture, flipped Class, project based learning, problem solving based learning, collaboration learning.

**As illustrated in the references section.

*Quiz 4: TBA

Course Contributing to Learner Skill Development

Using Technology
<ul style="list-style-type: none"> • Using Microsoft office to prepare reports and presentations • Using online medical applications/ calculators in solving some clinical problems • Using the university's e-learning site as a supporting reference tool and for term works solving
Communication Skills
<ul style="list-style-type: none"> • Clinical case presentation and solving • Teamwork and group discussions engagement
Application of Concept Learnt
<ul style="list-style-type: none"> • Clinical cases solving

Assessment Methods and Grade Distribution

Assessment Methods	Grade	Assessment Time (Week No.)	Course Outcomes to be Assessed
Mid Exam	% 30	7 th week	K1-K3 S1-S3
Reports and Projects*	% 30	Continuous	K1-K3 S1-S4
Final Exam	% 40	16 th week	K1-K3 S1-S3
Total	%100		

* Include: quizzes, in-class and out of class assignment, presentations, reports, videotaped assignment, group or individual project.

Alignment of Course Outcomes with Learning and Assessment Methods

Number	Learning Outcomes	Corresponding Competencies	Learning Method*	Assessment Method**
Knowledge				
K1	Apply the knowledge obtained from this course to solve treatment problems associated with different diseases.	C3	Lecture	Exams
K2	*To integrate and apply pathophysiologic and pharmacotherapeutic knowledge to develop a drug therapy plan specific for each patient condition taking into account population differences and social determinants and their effect on medical care. *Being the medication expert and properly provide a patient centered care (collect and interpret evidence, prioritize, formulate assessments and recommendations, implement, monitor and adjust plans and document activities)	C1, C2, C4, C5	Lecture	Exams
K3	Be familiar with clinical presentations and the differential lab and physical examinations of different diseases.	C1, C2	Lecture	Exams
Skills				
S1	Use evidence-based medicine to think critically of different medical cases.	C8	Lecture	Exams
S2	To provide the patient with a comprehensive treatment plan for his condition.	C7, C10	Lecture	Exams

S3	Give patients' appropriate counseling about their non pharmacological and pharmacological therapy.	C9	Lecture	Exams
S4	Communicate appropriately with patient and medical staff.	C9, C11, C12, C14	Lecture	Discussions

*Include: lecture, flipped class, project based learning, problem solving based learning, collaboration learning.

** Include: quizzes, in-class and out of class assignments, presentations, reports, videotaped assignments, group or individual projects.

Course Polices

Policy	Policy Requirements
Passing Grade	The minimum pass for the course is (50%) and the minimum final mark is (35%).
Missing Exams	<ul style="list-style-type: none"> • Anyone absent from a declared semester exam without a sick or compulsive excuse accepted by the dean of the college that proposes the course, a zero mark shall be placed on that exam and calculated in his final mark. • Anyone absent from a declared semester exam with a sick or compulsive excuse accepted by the dean of the college that proposes the course must submit proof of his excuse within a week from the date of the excuse's disappearance, and in this case, the subject teacher must hold a compensation exam for the student. • Anyone absent from a final exam with a sick excuse or a compulsive excuse accepted by the dean of the college that proposes the material must submit proof of his excuse within three days from the date of holding that exam.
Attendance	The student is not allowed to be absent more than (15%) of the total hours prescribed for the course, which equates to six lecture days (n t) and seven lectures (days). If the student misses more than (15%) of the total hours prescribed for the course without a satisfactory or compulsive excuse accepted by the dean of the faculty, he is prohibited from taking the final exam and his result in that subject is considered (zero), but if the absence is due to illness or a compulsive excuse accepted by the dean of the college that The article is introduced, it is considered withdrawn from that article, and the provisions of withdrawal shall apply to it.
Academic Integrity	Philadelphia University pays special attention to the issue of academic integrity, and the penalties stipulated in the university's instructions are applied to those who are proven to have committed an act that violates academic integrity, such as cheating, plagiarism (academic theft), collusion, intellectual property rights.
