

Philadelphia University	 <b>PHILADELPHIA UNIVERSITY</b> THE WAY TO THE FUTURE	Approved Date: 10/10/2021
Faculty: pharmacy		Issue: 1
Department:-		Credit Hours:3
Academic Year:2021/2022		<b>Course Syllabus</b>

### Course Information

Course No.	Course Title	Prerequisite	
0520223	Physiology (2)	Physiology (1) 0520200	
<b>Course Type</b>		<b>Class Time</b>	<b>Room No.</b>
<input type="checkbox"/> University Requirement <input checked="" type="checkbox"/> Faculty Requirement <input checked="" type="checkbox"/> Major Requirement <input type="checkbox"/> Elective <input type="checkbox"/> Compulsory		8:15-9:45 Mon,Wend 11:15- 12:45 Sun,Tus	508

### Instructure Information

Name	Office No.	Phone No.	Office Hours	E-mail
Prof.Jamal Al-Sharef	----	-----	10-11 Mon,Wend	-----

### Course Delivery Method

<input type="checkbox"/> Blended <input type="checkbox"/> Online <input checked="" type="checkbox"/> Physical			
<b>Learning Model</b>			
Percentage	Synchronous	Asynchronous	Physical
			100%

### Course Description

The course is designed to provide the students with knowledge about the normal functions and mechanism of various physiological systems basis on the anatomical and histological correlation, including: physiology of central nervous system (CNS), physiology of different endocrinal glands includes their relation to other body systems, Physiology of cardiovascular (CVS) system, and physiology of the respiratory system and blood gases . And finally physiology of special senses.

## Course Learning Outcomes

Number	Outcome	Corresponding Program Outcomes	Corresponding Competencies
<b>Knowledge</b>			
<b>K1</b>	Develop Information about the functional principles of physiology ; and apply knowledge for mechanisms of action of the body systems	K <sub>P</sub> 1	C1
<b>K2</b>	Building further functional anatomical and histological relationship which have been studied previously by students	K <sub>P</sub> 1	C1
<b>K3</b>	Make better understanding for physiology II.	K <sub>P</sub> 1	C1
<b>Skills</b>			
<b>S1</b>	Compare the normal physiological mechanisms with abnormal ones	S <sub>P</sub> 3	C9
<b>S2</b>	The ability to analyze the normal physiological mechanisms to educate all audiences by determining the most effective and enduring ways to impart information	S <sub>P</sub> 6	C12
<b>S3</b>	Engage with groups work verbally and non verbally for doing certain scientific activity in physiology and research Activity	S <sub>P</sub> 6	C12

## Learning Resources

<b>Course Textbook</b>	<b>Introduction to Human physiology:</b> Laura Lee Sherwood; 9 <sup>th</sup> edition; 2016; ISBN-13: 978-0134399416
<b>Supporting References</b>	<b>Text Book of Medical physiology:</b> John E. Hall Guyton; 13th edition; 2014; ISBN-13: 978-1455770052.
<b>Supporting Websites</b>	<a href="http://www.scinedirect.com">www.scinedirect.com</a> , <a href="http://www.youtube.com">www.youtube.com</a>
<b>Teaching Environment</b>	<input checked="" type="checkbox"/> Classroom <input type="checkbox"/> laboratory <input type="checkbox"/> Learning Platform <input type="checkbox"/> Other

## Meetings and Subjects Time Table

Week	Topic	Learning Method*	Task	Learning Material
1	<b>The vision and mission of Pharmacy Faculty</b> <b>Course syllabus</b> <ul style="list-style-type: none"> <li>Introduction to physiology 2 course</li> </ul>	Lecture		Vision and Mission of faculty of pharmacy  Course syllabus  Text Book, unit 1
2	<b>Physiology of cardiovascular system :</b> Physiology of CVS: Heart ,Blood vessels pulmonary circuit, Main functions of thecvs,Cardiac conducting system ,Physiology of CVS: Electrocardiogra Electrical activity of the heart pacemaker potential Anode.	Lecture		Text Book, unit 3, chapters9-12,14,15,18
3	<b>Physiology of cardiovascular system :</b> cardia output, stroke volume, control of cardiac output of action potential of cardiac cell Blood flow and velocity Heart sounds, control of heart rate, Blood pressure its control.	Lecture	Quiz	Text Book, unit 3, chapters9-12,14,15,18
4	<b>Physiology of respiratory system:</b> External respiration , internal respiration, Mechanism of breathing , conducting airways , Respiratory zone, Alveoli, Surfactant.	Lecture		Text Book, unit 7, chapters 37-42
5	<b>Physiology of respiratory system:</b> Boyles low, Pulmonary function tests, Gas exchange in the lungs , Regulation of respiration.	Lecture Collaborative learning	Video assissgment	Text Book, unit 7, chapters 37-42
6	<b>Physiology of respiratory system:</b> Physiology of blood gases : chemical control of breathing , hypercapnia , Respiratory acidosis, Hypocapnia, Haemoglobin and O2 transport, types of haemaglobin,oxygen binding ability of haemoglobin,Co2 transport in blood.	Lecture		Text Book, unit 7, chapters 37-42
7	<b>Physiology of CNS:</b> Organization of the CNS and its role in homeostasis, cranial nerves, Meninges ,Ventricular system of brain and csf.	Lecture	Quiz	Text Book, unit 9-11
8	<b>Physiology of CNS:</b> Forebrain, cerebrum, cerebral, cortex, Basal nuclei	Lecture		Text Book, unit 9-11
9	<b>Physiology of CNS:</b> Diencephalon, Thalamus, Hypothalamus, Epithalamus, Brainstem, Medulla oblongata, pons, Midbroin.	Lecture Collaborative learning		Text Book, unit 9-11

10	<b>Physiology of CNS:</b> Cerebral cortex, Motor area, Sensory area , Motor and sensory association areas Gross structure of the Urinary system	Lecture	Quiz	Text Book, unit 9-11
11	<b>Physiology of CNS:</b> Basal ganglia cerebellum, language (speech areas), Reticular Formation, Spinal cord and its tracts.	Lecture project based learning		Text Book, unit 9-11
12	<b>Physiology of special senses:</b> the eye and vision Refraction ,Accommodation visual acuity, Myopia hypermetropia, Astigmatism Retina: Effect of light on rods, Electrical activity of the retinal, cells conscolour vision.	Lecture	Home work	Text Book, unit 9,10
13	<b>Physiology of special senses:</b> The ear and hearing Outer ear, muddle ear, cochlea, spiral organ "organ of corti" neural pathways of hearing Hearing impairment vestibular apparatus equilibrium. Sensory hair cells of the vestibular apparatus. Utricle and saccule, semi circular canals utricule (neural pathway) nystagmus vvertigo physiology of taste and smell.	Lecture		Text Book, unit 9,10
14	<b>Physiology Of endocrine system</b> classification of hormones, Polarity of the hormones, Hormones, Mechanisms of hormone actions.	Lecture		Text Book, unit 14, chapters 74-75
15	<b>Physiology Of endocrine system</b> posterior pituitary, Hypothalamic control of posterior pituitary oxytocin and ADH, Anterior pituitary hormones, Hypothalamic- pituitary Gonad axis. Adrenal cortex hormones , Adrenal medulla hormones , stress, and adrenal glands , Thyroid gland hormones , Parathyroid hormones , islet of langerhan , insulin , Glucagon, Pineal gland , sex hormones.	Lecture		Text Book, unit 14, chapters 74-75
16	<b>Final Exam</b>			

\*Includes: lecture, flipped Class, project based learning, problem solving based learning, collaboration learning.

### Course Contributing to Learner Skill Development

<b>Using Technology</b>
Using Microsoft programs (word, power point), YouTube videos, Google and scientific websites
<b>Communication Skills</b>
Videos and home works discussion
<b>Application of Concept Learnt</b>
Transfer learnt Physiological information about body systems to others

## Assessment Methods and Grade Distribution

Assessment Methods	Grade	Assessment Time (Week No.)	Course Outcomes to be Assessed
Mid Term Exam	% 30	6 <sup>th</sup>	K1,K2,S1
Term Works*	% 30	Continuous	S1-S3
Final Exam	% 40	16 <sup>th</sup>	K1-K3 S1-S3
<b>Total</b>	<b>%100</b>		

\* Include: quizzes, in-class and out of class assignment, presentations, reports, Videotaped assignment, group or individual project.

## Alignment of Course Outcomes with Learning and Assessment Methods

Number	Learning Outcomes	Corresponding Competencies	Learning Method*	Assessment Method**
<b>Knowledge</b>				
<b>K1</b>	Develop Information about the functional principles of physiology ; and apply knowledge for mechanisms of action of the body systems	C1	Lecture  Project Based Learning	Quizzes  Exam  Home work
<b>K2</b>	Building further functional anatomical and histological relationship which have been studied previously by students	C1	Lecture  Collaborative learning	Exam  Video assignments
<b>K3</b>	Make better understanding for physiology II.	C1	Lecture  Collaborative learning	Exam  Home work
<b>Skills</b>				
<b>S1</b>	Compare the normal physiological mechanisms with abnormal ones	C9	Lecture	Quizzes  Exam
<b>S2</b>	The ability to analyze the normal physiological mechanisms to educate all audiences by determining the most effective and enduring ways to impart information	C12	Lecture	Video assignment
<b>S3</b>	Engage with groups work verbally and non verbally for doing certain scientific activity in physiology and research Activity	C12	Lecture	Video assignment  Home work

\*Include: lecture, flipped class, project based learning, problem solving based learning, collaboration learning.

\*\* Include: quizzes, in-class and out of class assignments, presentations, reports, videotaped assignments, group or individual projects.

### Course Policies

Policy	Policy Requirements
<b>Passing Grade</b>	The minimum pass for the course is (50%) and the minimum final mark is (35%).
<b>Missing Exams</b>	<ul style="list-style-type: none"> <li>• Anyone absent from a declared semester exam without a sick or compulsive excuse accepted by the dean of the college that proposes the course, a zero mark shall be placed on that exam and calculated in his final mark.</li> <li>• Anyone absent from a declared semester exam with a sick or compulsive excuse accepted by the dean of the college that proposes the course must submit proof of his excuse within a week from the date of the excuse's disappearance, and in this case, the subject teacher must hold a compensation exam for the student.</li> <li>• Anyone absent from a final exam with a sick excuse or a compulsive excuse accepted by the dean of the college that proposes the material must submit proof of his excuse within three days from the date of holding that exam.</li> </ul>
<b>Attendance</b>	The student is not allowed to be absent more than (15%) of the total hours prescribed for the course, which equates to six lecture days (n t) and seven lectures (days). If the student misses more than (15%) of the total hours prescribed for the course without a satisfactory or compulsive excuse accepted by the dean of the faculty, he is prohibited from taking the final exam and his result in that subject is considered (zero), but if the absence is due to illness or a compulsive excuse accepted by the dean of the college that The article is introduced, it is considered withdrawn from that article, and the provisions of withdrawal shall apply to it.
<b>Academic Integrity</b>	Philadelphia University pays special attention to the issue of academic integrity, and the penalties stipulated in the university's instructions are applied to those who are proven to have committed an act that violates academic integrity, such as cheating, plagiarism (academic theft), collusion, intellectual property rights.
