Course Description

This course complements the theoretical material of industrial and pharmaceutical technology courses. The course is designed to give the student a detailed knowledge concerning powders used in pharmaceutical formulations including: powder mixing, milling, characterization of flowability, compressibility and particle size analysis. Also the course covers the granulation of powders as one of the main prerequisite steps for tablet compression . Quality control of some solid dosage forms are also covered in the course.

The process of tablet film coating and problems encountered during the process is also included

Course Learning Outcomes

Number	Outcome	Corresponding Program Outcomes	Corresponding Competencies
Knowledge			
K1	Gain knowledge to operate equipments and techniques used in formulation and compression of solid dosage forms	K _P 1 & K _P 6	C ₁ , C ₆
K2	Gain knowledge related to the application and interpretation of quality control tests of solid dosage forms	K _P 1 & K _P 6	C ₁ , C ₆
Skills			
S1	Practice operating equipments and techniques related to the formulation, production and quality control of solid dosage forms	S _P 2	C ₈
S2	To be able to adapt and accommodate team working	S _P 6 S _P 8	C ₁₂ , C ₁₄
S3	To be able to identify problems encountered during granulation, tablet compression and coating procedures.	S _P 2	C ₈
S4	To be able to represent, analyze and interpret collected data and extract relevant information from related resources as needed	S _P 6	C ₁₂

Learning Resources

Course Textbook	Manual of pharmaceutical technology practical from the University Bookshop.

Meetings and Subjects Time Table

Week	Topic	Learning Method*	Task	Learning Material
1	Vision and Mission of faculty of pharmacy Course Syllabus Introduction to safety rules	lecture		Vision and Mission of Faculty of Pharmacy Course Syllabus Manual
2	Particle size analysis	Flipped class Problem solving based learning	Report	Manual
3	Size reduction.	Flipped class Problem solving based learning	Report	Manual
4	Solid- solid mixing	Flipped class Problem solving based learning	Report	Manual
5	Characterization of flow properties of powders & Improvement of powder flow	Flipped class Problem solving based learning	Report Homework	Manual
6	Granulation & Tablet production	Flipped class Problem solving based learning	Report Out of class Assignment	Manual
7	Quality control of tablets part 1 : Uniformity of weight B.P. Disintegration test B.P Uniformity of thickness Friability, crushing strength	Flipped class Problem solving based learning	Report Homework	Manual
8	Lab off due to mid exam			
9	Quality control of tablets part 2 : Uniformity of content test BP Uniformity of dosage units USP of Acetaminophen tablets	Flipped class Problem solving based learning	Report	Manual

10	Dissolution test of paracetamol 500 mg tablets USP Determination of dissolution profile of immediate release paracetamol tablets Quality control of capsules :indomethacin 25 mg capsules Dissolution test USP	Flipped class Problem solving based learning	Report Homework	Manual
11	Film coating of tablets	Flipped class Problem solving based learning	Out of class Assignment	Manual
12	Practical examination			
13	Final examination			

*Includes: lecture, flipped Class, project based learning, problem solving based learning, collaboration learning.

Course Contributing to Learner Skill Development

Using Technology
<ul style="list-style-type: none"> Using Excel to construct tables and plots Operating equipments used in manufacturing of solid dosage forms , tablet press and quality control testing
Communication Skills
<ul style="list-style-type: none"> Writing Reports Team working
Application of Concept Learnt
Practical application of unit operations in formulation of solid dosage forms, granulation ,tablet compaction and quality control testing

Assessment Methods and Grade Distribution

Assessment Methods	Grade	Assessment Time (Week No.)	Course Outcomes to be Assessed
Reports & out class assignments	% 30	Week 2-7 Week 9-11	K1 & K2 S1 ,S2 , S3 & S4
Quizzes	% 20	Week 3,week 4 week 6, week 9	K1 & K2 S1 , S3 & S4
Practical examination	% 10	Week 12	S1 , S3 & S4
Final Exam	% 40	Week 13	K1 & K2 S1 , S3 & S4
Total	%100		

* Include: quizzes, in-class and out of class assignment, presentations, reports, videotaped assignment, group or individual project.

Alignment of Course Outcomes with Learning and Assessment Methods

Number	Learning Outcomes	Corresponding competencies	Learning Method*	Assessment Method**
Knowledge				
K1	Gain knowledge to operate equipments used in formulation and compression of solid dosage forms	C₁, C₆	Flipped class Problem solving based learning	Reports Quizzes Final Exam Outclass assignments
K2	Gain knowledge related to the application and interpretation of quality control tests of solid dosage forms	C₁, C₆	Flipped class Problem solving based learning	Reports Quizzes Final Exam Out-class Assignments
Skills				
S1	Practice operating equipments and techniques related to the formulation, production and quality control of solid dosage forms	C₈	Flipped class Problem solving based learning	Practical exam Final exam Quizzes
S2	To be able to adapt and accommodate team working	C₁₂, C₁₄	Flipped class Problem solving based learning	Evaluation of group collaboration during experiment
S3	To be able to identify problems encountered during granulation, tablet compression and coating procedures.	C₈	Flipped class Problem solving based learning	Outclass assignments Homeworks Final exam Quizzes
S4	To be able to represent, analyze and interpret collected data and extract relevant information from related resources as needed	C₁₂, C₁₅		Reports Quizzes Final Exam Out-class Assignments

*Include: lecture, flipped class, project based learning, problem solving based learning, collaboration learning.

** Include: quizzes, in-class and out of class assignments, presentations, reports, videotaped assignments, group or individual projects.

Course Polices

Policy	Policy Requirements
Passing Grade	The minimum pass for the course is (50%) and the minimum final mark is (35%).
Missing Exams	<ul style="list-style-type: none"> • Anyone absent from a declared semester exam without a sick or compulsive excuse accepted by the dean of the college that proposes the course, a zero mark shall be placed on that exam and calculated in his final mark. • Anyone absent from a declared semester exam with a sick or compulsive excuse accepted by the dean of the college that proposes the course must submit proof of his excuse within a week from the date of the excuse's disappearance, and in this case, the subject teacher must hold a compensation exam for the student. • Anyone absent from a final exam with a sick excuse or a compulsive excuse accepted by the dean of the college that proposes the material must submit proof of his excuse within three days from the date of holding that exam.
Attendance	The student is not allowed to be absent more than (15%) of the total hours prescribed for the course, which equates to six lecture days (n t) and seven lectures (days). If the student misses more than (15%) of the total hours prescribed for the course without a satisfactory or compulsive excuse accepted by the dean of the faculty, he is prohibited from taking the final exam and his result in that subject is considered (zero), but if the absence is due to illness or a compulsive excuse accepted by the dean of the college that The article is introduced, it is considered withdrawn from that article, and the provisions of withdrawal shall apply to it.
Academic Integrity	Philadelphia University pays special attention to the issue of academic integrity, and the penalties stipulated in the university's instructions are applied to those who are proven to have committed an act that violates academic integrity, such as cheating, plagiarism (academic theft), collusion, intellectual property rights.
